“Luxury is the new Buckhead motto and Sculpted Contours fits right in.”

Inspired by luxury aesthetic centers in other major cities, Sculpted Contours Luxury Medical Aesthetics introduced our flagship Buckhead location in 2014. Atlanta was missing the unique concept of luxury medical aesthetics until we opened last year. Our discerning clients expect a premium experience, superior results and procedures that fit into their busy lives. With 25 years of medical experience, I ensure our patients receive exceptional care and excellent results; which is why they keep coming back and referring their friends. In a competitive city like Atlanta, part of being successful is looking successful. Sculpted Contours provides the highest quality non-invasive procedures to sculpt, slim, tighten and lift your body and face. We help men and women look their best at any age. As a single mother of young twin boys and a business owner, I personally understand the special needs of our busy clients. Like any working woman or Mom, finding time to take care of myself is challenging. We chose the best sculpting procedures with no downtime so our clients can get back to their busy lives. I am thrilled to be part of Buckhead's transformation into a destination for luxury shopping, dining and personal services. Luxury is the new Buckhead motto and Sculpted Contours fits right in.
